**RE: XAVIER STRICKLAND ORDINANCE MODIFICATION OPINION**

My office has received numerous calls from community residents concerned about the strength of the Xavier Strickland Ordinance after the horrific demise of Emma Hernandez at the mouths of three vicious dogs. I am requesting an opinion on the legality of modifying the Xavier Strickland Ordinance to:

1. Allow the Animal Control officers to more easily seize dogs that pose a threat to public health, safety and welfare.
2. Allow the City of Detroit to set a pre-determined monetary value on the lives of dogs, similar to some jurisdictions where livestock have a predetermined monetary value in case of accidental death.
3. Implement a requirement that all dogs residing within Detroit be neutered, or a breeding license be purchased by the owner to keep a non-neutered dog in the City.
4. Require dog owners to purchase higher levels of liability insurance.

Please provide the information by 27 September 2019. If you have any questions do not hesitate to contact my office at, 313-224-1198.

**RE:** **XAVIER STRICKLAND ORDINANCE REPORT**

My office has received numerous calls from community residents concerned about the strength of the Xavier Strickland Ordinance after the horrific demise of Emma Hernandez at the mouths of three vicious dogs. I am requesting LPD research other municipalities and jurisdictions that have strong animal control ordinances, sans regulations that ban any breed of dog. I would like to strengthen the current ordinance to better protect our residents by creating an environment where residents can feel safe in any neighborhood and dog owners have a clear set of guidelines for responsible ownership.

Please provide the information by 27 September 2019. If you have any questions do not hesitate to contact my office at, 313-224-1198.

RE: City of Detroit's Website-Detroit Police Department

After perusing [www.detroitmi.gov/departments/police-department](http://www.detroitmi.gov/departments/police-department), I noticed that the site does not display the names of command staff at the various precincts. In an effort to ensure accountability and transparency when addressing criminal matters, this information should be made accessible to citizens via this forum. In addition, I noticed that the information for the neighborhood police officers (NPOs) is out of date. Please have someone from your department investigate this matter as soon as possible and inform me of the outcome of your investigation. ***A response is requested by September 9, 2019.***
